

AHMED NADEEM

Full-Stack Web Developer | Next.js & React | SEO & Performance

SUMMARY

Full-stack web developer experienced in building multilingual, SEO-optimized websites for international clients. Skilled in Next.js, TypeScript, React, Tailwind CSS, WordPress, WPBakery, and Node.js, with experience delivering complete web solutions from development and architecture to SEO and email systems.

EXPERIENCE

Full-Stack Web Developer

IT Solutions Worldwide (ITWW) — Netherlands

2026 – Present

- Built and maintain [staffoutsourcing.nl](#) a full Next.js/Turborepo monorepo website with complete bilingual (EN/NL) support, translated components, JSON-driven category pages, and a full IT staffing job listings system.
- Developed the full [itsolutionsworldwide.com](#) (ITWW) website in Next.js, including Dutch (NL) translation across all pages and an internal admin dashboard (itww-admin) for structured job content management.
- Led full-site SEO implementation: canonical tag fixes, hreflang mapping, sitemap and robots.txt configuration, and redirect chain consolidation.
- Improved Core Web Vitals/LCP through bundle splitting, lazy loading, and dynamic imports for GSAP, Three.js, and Framer Motion.

Web Development Intern

Hashes Software House

2025 | 3 Months

- Completed a 3-month web development internship, working alongside the development team on live client projects and production workflows, gaining hands-on exposure to team-based development and client-facing delivery.

EDUCATION

BS, Software Engineering

HITEC University Taxila, Pakistan

2021 – 2025

FSC, Pre-Engineering

FG Science Degree College

2019 – 2021
